ABOUT ME

BCA Gold Medalist and MCA student skilled in Python, SQL, Excel, Power BI, business analysis, and data analytics, with experience in software development and Agile methodologies.

EDUCATION

- **MCA** | Sikkim Manipal University | 2025-2027
- **BCA** | Maharaja Sayajirao University of Baroda University | 2022-2025 | **Gold Medalist - 9.2 CGPA**

WORK EXPERIENCE

Air World Shipping Group | Feb 2026 - July 2026

Business Research & Data Operations Assistant (Part-Time)

- Conduct market and competitor research using LinkedIn and web-based sources to identify potential business opportunities.
- Maintain and organize lead databases and client information using Excel.
- Prepare reports and summaries to support sales and business development activities.
- Analyze market trends and competitor activities to assist strategic decision-making.

SKILLS

Technical: Python, SQL, Javascript, MySQL, MongoDB
Analytics: Data Analysis, Data Cleaning, EDA, Data Visualization, Statistical Analysis
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Visualization & Reporting: Power BI, Tableau, Excel, Dashboard Development, KPI Reporting
Business & Tools: Requirements Analysis, Agile, Scrum, Git, GitHub

PROJECTS

Customer Segmentation using RFM Analysis

Python, SQL, Seaborn, PowerBI

- Segmented customers using RFM analysis to identify high-value, loyal, and at-risk customer groups.
- Generated actionable insights to support customer retention and targeted marketing strategies.

Retail Sales Analytics Dashboard

Python, PostgreSQL, Tableau

- Analyzed 9,994 retail orders, uncovering $2.29M in sales and $286K profit with overall 12.47% profit margin.
- Built an interactive Tableau dashboard to identify top-performing categories, regional sales trends, and profit leakage points, enabling data-driven business decisions.

Supply Chain Performance Analysis

Python, PowerBI

- Developed a Power BI dashboard to monitor logistics KPIs across 180K+ orders, including processing time, delay rates, delivery status, and shipping performance.
- Identified key operational bottlenecks through analysis of a 57.28% delay rate and shipping-mode performance trends.

CERTIFICATIONS

- TCS GenAI Powered Data Analytics (Forage)
- Accenture Data Analytics & Visualization (Forage)
- Advanced SQL (HackerRank)
- IBM Data Science with Python
