PROJECTS

- **Coaching Institute Management System**
 <https://shreeji-classes-main.vercel.app/>

Final Semester Project | MERN Stack | Deployed on vercel
 - Developed a secure web platform to manage course enrollments, inquiries, attendance, fees, notifications, timetable, study materials and quizzes with role based access for admin, teachers and students.
 - Integrated Twilio API for real-time SMS alerts to parents regarding attendance, marks and fees; used Node-Cron for monthly automated performance and fee reports.
 - Implemented Razorpay for secure online fee payments and used Cloudinary to upload and manage materials efficiently.
- **oneStop - Event Management System**
Group project | MERN Stack
 - Collaborated on frontend module using React.js and handled user interaction and booking components.
 - Designed and developed the booking module, integrated Stripe for secure advance payments.
 - Implemented Cloudinary for image storage and built a mini chatbot to guide users through booking and queries.
- **Money Management System**
PHP, MySQL
 - Built a financial tracking application to manage user income and expenses.
 - Enabled users to add, edit, delete transactions with valid and real-time updates.
 - Added CSV file upload feature to allow bulk transaction entries.
